

Adam Amina

Adams is 16 years old and in Class 8 (eighth grade) at Kibera Primary School in Kibera. He was first introduced to art and when he was young and started drawing cartoons and sketching on his own. The first time he ever painted was when he joined Uweza's art program in 2014.

Although Adams is still young, he has already started to develop his own unique style as an artist. He is known for his use of bright, vivid colors in his work. His favorite subjects to paint are abstracts and sunsets. Through his art, he hopes to convey the messages of unity, peace, and justice.

In the future, his dream is to become a professional artist. According to Adams, Uweza Art Gallery has helped by providing art materials so that he can develop his talent and by keeping him busy so that he can avoid risky and negative behaviors prevalent among youth in the slum. Adams pays the entirety of his primary school education himself, through the sales of his artwork.
