

Cynthia 'Ceen' Brenda

Cynthia is 18 years old and completed high school in November 2018. Since completing high school, sales from her artwork are her only source of income. She is currently living with her parents in Kibera.

Ceen is currently the youngest female artist at Uweza Art Gallery. She first noticed that she had an interest and talent in art when she started drawing cartoons and animals when she was young. She continues to pursue art because she recognizes her talent.

Her favorite subjects to paint are landscapes, sunsets, and animals but her biggest challenge as a young artist is finding ideas and inspirations for subject matter. In the future, she dreams to open her own gallery. Her message to anyone that views her art is: 'Art is something that can help someone express something to the community and I enjoy doing that.'
